

# MALLA PRASHANTH

+91 70133 77812 — prashanthmalla920@gmail.com

## CAREER OBJECTIVE

---

Motivated and detail-oriented Electrical & Electronics Engineering student with a strong academic record and hands-on experience in industrial systems, automation, and embedded technologies. Skilled in problem-solving, analytical thinking, and leadership with a proven ability to adapt and deliver results in technical environments.

## EDUCATION

---

**B.Tech in Electrical and Electronics Engineering**, KL University, Vijayawada (2024–2027)  
**Diploma in Electrical and Electronics Engineering**, Govt. Polytechnic, Kothagudem — *CGPA: 9.62* (2021–2024)  
**CBSE (Class X)**, ITC Bhadrachalam Public School — *CGPA: 8.0* (2021)

## Projects

---

**AI-Based V2V Negotiation System for Safe Intersection Navigation in EVs** *AI University Project — 2025–26*

- Developed Raspberry Pi based intelligent intersection management system for electric vehicles.
- Implemented V2V and V2I communication for real-time vehicle coordination.
- Applied FCFS-based right-of-way assignment and AI trajectory prediction for collision avoidance.

**Smart EV Charging System with Battery Management**

*Diploma Final Year Project*

- Developed automated EV charging station with payment integration and battery health monitoring.
- Implemented charging duration tracking and user-interface-based monitoring.

**IoT-based smart parking system**

- Raspberry Pi Pico W with HC-SR04 ultrasonic and IR proximity sensors to detect real-time slot occupancy, replacing Blynk with a self-hosted Chrome web dashboard served over local WiFi — accessible from any browser with zero app install..=

## TECHNICAL SKILLS

---

**Core:** Power Electronics & Drives, Electrical Safety, AutoCAD Electrical

**Tools** Github,Thonny, VS code, Cloudflare, MS Office

**Languages:** C, Python ,MATLAB

**Soft Skills:** Problem Solving, Analytical Thinking, Adaptability, Leadership

## INDUSTRIAL EXPERIENCE

---

**Electrical Intern**

*ITC Limited – Paper Machine 7 Unit (Dec 2023 – Jun 2024)*

- Assisted in maintenance of motors, VFDs, DCS, and PLC systems.
- Supported troubleshooting, documentation, and control panel testing.

## CERTIFICATIONS

---

- *Microchip Advanced Embedded System Developer Internship* – EduSkills & APSCHE (120 hrs, May 2025)
- *Artificial Intelligence Internship* – SkillDzire (Jun 2025)

## ACHIEVEMENTS & LEADERSHIP

---

- Secured **89.65%** in TCS iON National Qualifier Test (Cognitive) – 2025
- Presented **Smart EV Charging Project** at State-Level Srujana Tech Fest
- **Student Coordinator** – District Level Inter Polytechnic Sports Meet (2022–23)
- **Literary Secretary** – Organized school exhibitions and events
- Completed **10-day NCC Training Camp** and earned ‘A’ Certificate
